Subject: CTI STD-201 Cooling Tower Thermal Performance Certification
NIBA Su Sogutma Kuleleri San. ve Tic. A.S.
HMP-NB Line of Induced-Draft, Counter-Flow Cooling Towers

Gentlemen:

The NIBA Su Sogutma Kuleleri San. ve Tic. A.S. (NIBA) line of HMP-NB induced-draft, counter-flow, cooling towers, as described in their original application and subsequent revisions through June 4, 2014 has satisfactorily fulfilled the requirements for certification of thermal performance by the Cooling Technology Institute (CTI), as set forth in the CTI Certification Standard STD-201(13). A list of the twenty-three (23) primary models in the NIBA line of HMP-NB cooling towers currently encompassed by this certification is included with this letter for reference.

The NIBA line of HMP-NB cooling towers has been assigned and should use CTI Certification Validation Number C55A-14R00 for the line of towers. You are hereby authorized and encouraged to properly display the CTI Certification Logo in all pertinent literature for the line and required to affix the CTI Certification Label to all towers comprising the line, as provided in the Certification Standard.

This CTI Certification requires the successful completion of a CTI Annual Reverification Test to remain in effect in subsequent years.

Very truly yours,

Michael Womack, P.E.
CTI Certification Administrator
